TREE TALKS

The Colorado Nursery Co., Loveland, Colo.

VOL. 4

SEASON 1926

VOL. 4

THIS NUMBER of Tree Talks is a supplement to our catalogue, and gives a complete list of the Trees, Plants, etc., we have to sell this season.

Shade Trees	Col. 3
Shrubs	Col. 5
Evergreens	Col. 6
Vines	Col. 6
Roses	Col. 7
Peonies	Col. 8
Iris	Col. 8
Phlox	Col. 8

Dahlias	Col. 9
Gladiolus	Col. 9
Fruit Trees	Col. 10
Fruit Plants and Vines	Col. 12

SOMETHING NEW IN SHRUBS AND PLANTS

For several years we have been selling 'Balled Shrubs', like the one shown in photograph. Only a few at first, but later, by the dozens and hundreds, and they have given such uniform, good satisfaction that we have added nearly all kinds of shrubs to our list, as well as Roses and Perennials. They are lifted from the field with a large ball of earth sacked to the roots.

The advantage of these large, blooming size plants is that they are ready to go when you buy them, and give immediate results. Instead of waiting for a small plant to grow, you have one already grown. One that should bloom nicely the first year.

FOR SUMMER PLANTING

We will have a nice assortment of the more popular varieties of shrubs, in the smaller sizes. (up to 3 feet); Roses in all our Hybrid Tea varieties, and Perennials in complete assortment, which can be planted any time during the summer.

2 year H. T. Rose. "Balled"

Col. 1.

These are **Field Grown**, but by a system which allows us to take them up any time, and still maintain their full vigor. We guarantee them to grow any time and will replace free any that does not.

Because the planting season, for dormant stock, is so short, a good many people cannot get the desired work done, and it has been necessary for them to wait another full season. But now things are different. You can plant any time you are ready.

BUSINESS TERMS

All Prices, (except as noted) are for the stock at the nursery, or express or freight station at Loveland and do not include express or freight charges. We will pay Postage on all items marked 'Post Paid' at the price each.

Our Terms—Are cash with order or satisfactory references. Orders to be sent C. O. D. should be accompanied by one-fourth cash.

Our Shipping Season—Begins April 1st and continues to May 15th. Orders filled promptly any time between those dates.

Our Guarantee—We guarantee all orders to reach the postoffice, express or freight station of the customer in a good, live condition. If received promptly and properly planted, we will replace, at one-half the retail price, all trees or plants that fail to start growth. We cannot be responsible for the life of any tree or plant after it has once started growth.

Caution—We intend that all trees and plants shall be true to name under which they are sold. On proper proof that any has proven otherwise, we will replace same free of cost or refund the price paid, but it is mutually agreed that we shall not be liable for any sum greater than the price paid for the trees or plants.

In Ordering—Please tell us how to ship.

SHADE AND ORNAMENTAL TREES

We specialize in good shade trees for altitudes of 5,000 feet or more. Our altitude is a little more than 5,000 feet and we have customers scattered all over the intermountain country, up to 8,000 feet. Since the bulk of our business is in these higher altitudes, we grow trees to fit their needs.

The size to plant is largely a matter of personal choice, and we offer several sizes in most things, to meet a varied

Col. 2

4-year Shrub, Spirea Van Houtti

demand. Some people hesitate about planting the extra large trees, and it is not necessary if you are not in a hurry, but where you want a tree right now, the large ones will deliver the goods. If given a fair chance, they will grow just as readily as the smaller trees.

One Dozen Trees of one kind at 10 times Price Each. Not Prepaid.

Ash, Elm, Honey Locust, Maple		each
3 to 3½ inch caliper		\$ 7.00
2 to 3 inch		5.00

Come To The Nursery

Our sales grounds business has increased from a small per cent to more than one-half of our total sales during the past five years.

Obviously, there is a good reason for this change, and if you are one that has not been here, we invite you to come during April or early May, but the earlier the better.

You will not save much on the price, the prices quoted here are lower now than most people care to sell the same kind of stock for, but you will save on the cost of handling and the express or freight charges. And you will get your trees and plants home in first class condition. A big item to consider.

We are here every day from seven a. m. to six p. m., and will be glad to see you.

The Colorado Nursery Co.
J. Q. Jackson, Manager.
